IMPLIED EDITS BASED ON PENAL LAW

Implied edits use the specifics implied by New York State law citations to establish the proper codes for certain logically dependent Data Elements. If the incident contains an OFFENSE SEGMENT with a law citation in Data Element #13-INCIDENT/COMPLAINT OFFENSE CODE corresponding to the specific law cited in the edit, then the Data Element coding requirements listed in the edits are mandatory. For example, if the penal law citation was for a weapons possession offense involving a firearm, then the corresponding entry in Data Element # 16-WEAPON/FORCE must be coded as a firearm.
