Supplemental Pretrial Release Summary Tables 2019-2022

Supplemental Pretrial Summary Tables 2019-2022

These tables present pretrial release decisions and final case dispositions for arraignments in New York City Criminal Courts (NYC) and City and District Courts outside of New York City (Non-NYC) from Jan. 1, 2019, through Dec. 31, 2022.

All tables show data by region for 2019 through 2022 for arraignments involving individuals 18 and older (as of the crime date) who were arrested for misdemeanor and felony charges that required fingerprints to be taken.

Data are compiled by top charge, meaning the most serious at arrest, arraignment, or conviction. These tables and the Supplemental Pretrial Release Data File contain information reported to DCJS as of August 18, 2023.

More information about the data and its limitations are detailed in the Appendix (Data Source Notes). The Data Dictionary defines terms used in the supplemental data file.

1: Lower Court Arraignments in New York State

These charts and tables show lower court arraignments and totals for each of these outcomes:

- Arraignments with pretrial release decisions
- Cases disposed at arraignment
- Cases where pretrial release decisions are not reported

2: Lower Court Arraignments by Top Charge Severity

These charts and tables show arraignments by the top charge severity at arraignment and if the top charge was a firearm offense:

- Violent felony, which are offenses defined in Penal Law Section 70.02, and Class A violent felonies
- Non-violent felony
- Misdemeanor
- Firearm, which are offenses defined in the Penal Law as involving the use, display, possession, or sale of a firearm, and displaying what appears to be a firearm

Note:

Firearm arraignments are a subset of total arraignments. Most arraignments for firearm offenses are violent felonies.

3: Pretrial Release Decisions at Arraignment by Quarter

These charts and tables show the first pretrial release decision made at arraignment in the following categories:

- Release on recognizance (ROR)
- Release under supervision (RUS: 2019 arraignments only). Release on one or more non-monetary conditions (NMR: 2020 – 2022)
- Bail set
- Remand to custody

Note**:**

Cases disposed at arraignment or with unknown pretrial release decisions are not included in the table.

4: Pretrial Release Decisions at Arraignment Charge Severity

These charts and tables show the first pretrial release decision made at arraignment by top charge severity (violent felony, non-violent felony, and misdemeanor).

Note**:**

Cases disposed at arraignment or with unknown pretrial release decisions are not included in the table.

5: Bail Set Amounts at Arraignment

These charts and tables show the cash bail amount set at arraignment. If cash amount set was not reported, the credit/bond amount set was used. Cases with unknown bail amount set at arraignment are not included.

Median bail amount set also is shown for each quarter. The median excludes cases with $1 bail set, as this amount is typically set when an individual is being detained for some other reason (e.g., warrant, violation of supervision, other charges on a separate case).

Note:

Bail set in a nominal amount is permissible under state Criminal Procedure Law 510.10(5), effective Jan. 1, 2020.

6: Bail Paid and Bail Not Paid Among Bail Set Cases

These charts and tables show the number of cases where bail was set at arraignment and the percent of cases when bail was paid either:

- On the arraignment date or
- Within five days of the arraignment date

Note**:**

Cases are reported as bail not paid if bail was not made within five days of the arraignment date.

7: Pretrial Release Outcomes by Quarter

These charts and tables show the number and percent of arraignments that were:

- Released and the release type – release on recognizance (ROR), release under supervision or on one or more non-monetary conditions (RUS/NMR), or bail paid (at arraignment or within five days)

- Not released and the custody type – bail not paid within five days of arraignment or remand to custody

Note**:**

Cases disposed at arraignment or with unknown pretrial release decisions are not included in the table.

8: Pretrial Release Outcomes by Arraignment Charge Severity

These charts and tables show the number and percent of arraignments that were released or not released (including the respective release and custody types) by arraignment year and arraignment charge severity (violent felony, non-violent felony, and misdemeanor).

- Released and the release type – release on recognizance (ROR), release under supervision or on one or more non-monetary conditions (RUS/NMR), or bail paid (at arraignment or within five days)

- Not released and the custody type – bail not paid within five days of arraignment or remand to custody

Note**:**

Cases disposed at arraignment or with unknown pretrial release decisions are not included in the table.

9: Final Case Dispositions and Cases Pending

This table shows the number of cases that reached final disposition by the following categories:

- Conviction or Youthful Offender Adjudication
- Dismissed or some other favorable outcomes (e.g., acquitted, no grand jury true bill, removed to family court)
- Cases pending final disposition for 2019 to 2022

Note**:**

Cases that have not yet reached a final disposition are classified as pending. This includes cases adjourned in contemplation of dismissal (ACD) that are not yet dismissed.

10: Days from Arraignment to Final Case Disposition

These charts and tables show the days from arraignment to final disposition by arraignment year (2019 to 2022) and the median days from arraignment to final disposition by arraignment charge severity (violent felony, non-violent felony, misdemeanor).

Percents are reported for days from arraignment to final disposition groupings along with cases disposed at arraignment and cases pending final disposition as of August 18, 2023.

Note**:**

2022 arraignments limited to January through September.

Cases that have not yet reached a final disposition are classified as pending. This includes cases adjourned in contemplation of dismissal (ACD) that are not yet dismissed.

11: Failure to Appear Before Final Case Disposition

This table shows the number and percent of cases where individuals who were released pretrial subsequently failed to appear in court at least once either 1) between arraignment and final disposition or 2) between arraignment and August 18, 2023, whichever came first, by the following categories:

- Release on recognizance (ROR)
- Release under supervision or on one or more non-monetary conditions (RUS or NMR)
- Bail paid (at arraignment or within five days)

12: Pretrial Rearrests Within 180 Days of Arraignment

These tables show the number and percent of cases where an individual was released pretrial and was rearrested between arraignment and either: 1) the six months that followed or 2) final case disposition if the case was disposed before reaching the six-month mark. Rearrests are shown by:

- Crime category – violent felony, non-violent felony, and misdemeanor
- Release type – release on recognizance (ROR), release under supervision or on one or more non-monetary conditions (RUS/NMR), or bail paid (at arraignment or within five days)

Notes**:**

Rearrests only include misdemeanor and felony offenses that require fingerprints to be taken. If there was more than one rearrest during the period, only the most serious rearrest is included.

Table 13: Pretrial Release Outcomes Among Top Charge Firearm Arraignments

These charts and tables show the number and percent of top charge firearm arraignments that were released or not released (including the respective release and custody types) by arraignment year and arraignment charge severity (violent felony, non-violent felony, and misdemeanor).

- Released and the release type – release on recognizance (ROR), release under supervision or on one or more non-monetary conditions (RUS/NMR), or bail paid (at arraignment or within five days)
- Not released and the custody type – bail not paid within five days of arraignment or remand to custody.

Notes**:**

Firearm offenses are defined in Penal Law as those involving the use, display, possession, or sale of a firearm, and displaying what appears to be a firearm.

Firearm arraignments are a subset of total arraignments. Most arraignments for firearm offenses are violent felonies.

Cases disposed at arraignment or with unknown pretrial release decisions are not included in the table.

Table 14: Pretrial Rearrests Among Top Charge Firearm Arraignments

These tables show the number and percent of cases where an individual was released pretrial after being arraigned on a firearm charge and was rearrested between arraignment and either: 1) the six months that followed or 2) final case disposition if the case was disposed before reaching the six-month mark.

Rearrests are shown for total arraignments and for firearm arraignments by:

- Rearrest crime category – violent felony, non-violent felony, misdemeanor, or firearm

Notes**:**

Rearrests only include misdemeanor and felony offenses that require fingerprints to be taken. If there was more than one rearrest during the period, only the most serious rearrest is included.

Firearm offenses are those defined in Penal Law as involving the use, display, possession, or sale of a firearm, and displaying what appears to be a firearm.

Firearm arraignments are a subset of total arraignments. Most arraignments for firearm offenses are violent felonies.

Note:
(1) Released and Not Released percents are based on Total Arraignments with Pretrial Release Decisions.
(2) Cases disposed at arraignment or with unknown pretrial release decisions are not included in the table.
(3) Top charge firearm arraignments include offenses involving the use, display, possession, or sale of a firearm, as well as displaying what appears to be a firearm. Most arraignments for firearm offenses are violent felonies.
(4) Bail Paid includes 'Paid at Arraignment' and 'Paid within 5 Days'.

Note:
(1) Released and Not Released percents are based on Total Arraignments with Pretrial Release Decisions.
(2) Cases disposed at arraignment or with unknown pretrial release decisions are not included in the table.
(3) Top charge firearm arraignments include offenses involving the use, display, possession, or sale of a firearm, as well as displaying what appears to be a firearm. Most arraignments for firearm offenses are violent felonies.
(4) Bail Paid includes 'Paid at Arraignment' and 'Paid within 5 Days'.
(5) DCJS, Computerized Criminal History (as of Aug. 18, 2023)

14: Rearrests Among Top Charge Firearm Arraignments

Table 14.
Rearrests Within 180 Days of Arraignment for Total Arraignments and Top Charge Firearm Arraignments

	NYC Criminal Courts							
	Total Arraignments				Top Charge Firearm Arraignments			
Rearrest	**2019**	**2020**	**2021**	**2022**	**2019**	**2020**	**2021**	**2022**
Total Releases	95,498	63,595	77,442	89,285	1,429	2,460	2,535	2,303
Any Rearrest	19%	22%	21%	24%	15%	16%	15%	16%
Rearrest Severity								
Violent Felony	3%	5%	5%	5%	4%	5%	6%	5%
Non-Violent Felony	8%	10%	10%	11%	6%	6%	6%	7%
Misdemeanor	8%	7%	7%	8%	5%	5%	4%	5%
Top Charge Firearm Rearrest	0%	1%	1%	1%	2%	3%	3%	2%

Notes:
(1) Rearrest percents based on arraignments releasing through ROR, RUS/NMR, or Bail Paid.
(2) Top charge firearm arraignments include offenses involving the use, display, possession, or sale of a firearm, as well as displaying what appears to be a firearm. Most arraignments for firearm offenses are violent felonies.
(3) DCJS, Computerized Criminal History system (as of Aug. 18, 2023)

	Non-NYC City and District Courts							
	Total Arraignments				Top Charge Firearm Arraignments			
Rearrest	**2019**	**2020**	**2021**	**2022**	**2019**	**2020**	**2021**	**2022**
Total Releases	60,511	48,483	51,199	52,771	574	867	921	817

Appendix:
DCJS Supplemental Pretrial Release Data File Source Notes

The DCJS Supplemental Pretrial Release Data File provides information about arraignments of individuals who were 18 and older at time of crime and arrested on charges requiring fingerprints. These arraignments occurred between Jan. 1, 2019, and Dec. 31, 2022. This data file and accompanying summary data tables provide information to the public on pretrial release outcomes before and after the state's bail reform law took effect on Jan. 1, 2020.

The agency developed this data file by matching top charge arrests reported to DCJS to the statutorily required Pretrial Release Data compiled by the Office of Court Administration (OCA) and DCJS. The statutorily required data file contains information about arraignments that occurred from Jan. 1, 2020, forward.

Both files contain information reported by New York City Criminal Courts, City and District Courts outside of New York City, and Superior Courts.

There are several paths a case can follow to arraignment in Superior Court. They may be transferred from New York City Criminal Courts, and District, City, Town, and Village Courts (also referred to as lower courts); or the case may originate in Superior Court.

Please note the following data limitations:

Superior Courts began reporting information to OCA at different times throughout 2021 and information reported by these courts for 2020-2021 may be incomplete. Given these limitations, caution should be used when analyzing and interpreting Superior Court data prior to 2022. Additional details on when Superior Courts began reporting data are included in the Data Dictionary.

State law that required detailed reporting of pretrial release information took effect on July 2, 2020. Pretrial release information maintained by OCA prior to 2020 was limited so caution should be used when comparing pretrial release information pre- and post-bail reform.

Differences between the DCJS Supplemental Data File and Statutorily Required Data File

Criminal Cycle vs. Docket Counts

The supplemental data file combines all top charge arrest, arraignment, and disposition information into a single "criminal cycle" that presents case activity from arrest through final case disposition. Each line in the supplemental data file represents one criminal cycle, which may include multiple offenses and/or multiple dockets.

As noted, the supplemental data file contains cases involving adults (18 and older) and only charges that require fingerprints upon arrest are reported to DCJS. This requirement is defined in state Criminal Procedure Law Section 160.10. Top charge is defined as the most serious offense at arrest, arraignment, and disposition.

The statutorily required data file presents case activity at the docket level. Dockets represent all arrests that are arraigned in court. A docket may contain:

- An arraignment involving an arrest that required fingerprints;
- An arraignment involving an arrest that did not require fingerprints;
- An arraignment that occurred in Superior Court after a case was transferred from a lower court, which results in a new docket (lower and upper court dockets are counted separately in the data file); or
- An arraignment that originated in Superior Court.

Given these factors, the statutorily required docket-based file will contain more data than the supplemental criminal cycle-based file for 2020 onwards.

Case Activity

The supplemental data file contains case activity, such as rearrests and bench warrants issued, that occurred between first arraignment and final disposition of the criminal cycle. Final disposition is the final outcome of a case, for example: conviction and sentencing, dismissal, or acquittal.

The statutorily required data file contains case activity, such as rearrests and bench warrants issued, that occurred between first arraignment and docket disposition. Disposition of a docket may not be the final case disposition. For example, a docket is disposed when it is transferred from a lower court to Superior Court, or when the final case outcome occurs.

Arrest, Arraignment and Conviction Charges

As noted, the supplemental data file is compiled by top charge: the most serious charge at arrest, arraignment, and conviction. For example, if there are felony and misdemeanor charges at arrest, arraignment, or conviction, the felony charge is shown.

Supplemental Pretrial Release Data Dictionary

This data dictionary contains data definitions, variable values, the source of each variable in the file (OCA or DCJS), and if 2019 information is available for a given variable.
